

- c. Evaluation of Modified Leaching and Neutralization Procedures, as indicated by Lysimeter sampling. Brohm Mining Corp, Heap No. 7 Leaching. By GeoChem (two copies)
- 30. Hazardous Materials Spill Contingency Plan for Gilt Edge Mine by Brohm and submitted to SDDWNR 1988
- 31. State of South Dakota Board of Mineral and Environment DWNR – In the Matter of the Application of Gilt Edge Inc. for a Large-Scale Mining Permit – Transcript of proceedings – Volumes I and II. 1986
- 32. Cumulative Environmental Impact Analysis for the CEE Study Area – Draft – by Browne, Bortz, and Coddington, Inc. 1990
- 33. Heap Leaching in Alaska – A short course sponsored by the Alaska State Legislature DNR 1988
- 34. Brohm Mining Corporation Gilt Edge Sulfide Project, June 3, 1988. Prepared for Brohm by Mintec Inc.
- 35. Cultural Resources Inventory of Monarch Mine Properties for Strawberry Hill Mining Company, Lawrence County, SD. By James K. Haug December 1984.
- 36. correspondence between Brohm and the State regarding water treatment
- 37. Geochemical Study of Leach Pad Neutralization, Brohm Mining Corp, SD. By Laura Damon
- 38. Stibnite Mine map
- 39. Permitting Requirements – various correspondence between Brohm and presiding agencies regarding Brohm's application for a mining permit. Circa late 1980s
- 40. Brohm Mining Corp. Response to Permit Conditions of Nov. 1986
- 41. US Forest Service –
 - a. Joint Review Agreement between SDDWNR and Black Hills National Forest, USDA USFS.
 - b. From USFS to Brohm a memo of understanding for the Gilt Edge Mine Expansion Project.
 - c. Plan of Operations Update – October 1989
 - d. USFS letter to "concerned citizen" 1989
 - e. Correspondence regarding plan of operations, cultural resources, water sampling, Lost Gulch, EIS, remediation, (some copied)

New Box #74 1094571

(From Original Box #131)

- 1. USMX of Alaska, Inc. – Illinois Creek Mine Monthly Reports / Manager's Monthly Reports
 - a. 1997 – July, March, April, May, June,
- 2. Strathcona Mineral Services Limited letter to Brohm dated August 29, 1995 – appended is the Review of the Gilt Edge Project, South Dakota for Repadre Capital Corporation. (copied)
- 3. Mine Evaluation Services – Brohm Mining Corporation – Technical Reserve Audit of the Gilt Edge Gold Mine, Deadwood, South Dakota, USA. Dated May 7, 1990. (three copies)
- 4. Western States Mining and Operators Directory 194-1995 edition
- 5. Caterpillar Performance Handbook Edition 21

6. Materials that were loaned to Browne, Bortz, and Coddington to prepare the Cumulative Environmental Evaluation.
 - a. 1991 Feasibility Study for Plant and Facility by Roberts and Schaefer (9 copies)
 - b. Plan of Operations 1989
 - c. Map
 - d. Preliminary Lawrence County, South Dakota Socioeconomic Baseline Report by EnecoTech 1988 for Brohm
7. Planning Rehabilitation and Treatment of Disturbed Lands - 6th Billings Symposium – March 21-27, 1993
 - a. Volume 1 – Tailings, Wastes, and AML Reclamation; Revegetation; Selenium – plants, soils and reclamation; Acid Forming Materials/Overburden; Cropland Reclamation/Revegetation (two copies)
 - b. Volume 2 – Study of Superfund Site, Woody Plant species, Hydrology, Wetlands, AMD Development, Cyanide General Reclamation, General Session and Poster Session
8. Workers Comp – binder – claims and bills
9. 1997 parcel and real estate tax information in a binder
10. Gilt Edge Expansion Project – Feasibility Level Design of Tailings and Waste Rock Disposal Facilities prepared for Roberts and Schaefer by EIC Corporation – March 1991
